Portfolio: <https://phalenh.github.io/phalen-portfolio/>

Physical Therapist Assistant pursuing a career change into the Information Technology (IT) field as a hard-working Full-Stack Web Developer. University of Pennsylvania LPS Coding bootcamp certification involving 24 intensive weeks dedicated to designing and building full-stack web applications. Developed a secret santa manager website, Maze game web app, and a tech related blog site among others. I'm passionate about turning ideas into results through precise code, creative designs, and fluid user interactions and experiences. My technical proficiency in a variety of web based technologies, combined with my strong work ethic and detail oriented approach, make me a strong addition to any project.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap

Backend: NodeJS, Express, MySQL, Handlebars, OOP, ORM, MVC

Projects

Wishlist: Secret Santa Manager

<https://github.com/PhalenH/gift-exchange-manager> | <https://wishlistmanager.herokuapp.com/>

- All around contributor (front-end and back-end)
- Manage your work, family, or friend holiday gift exchanges all in one place.
- The website allows easy event detail customization, set reminders for events, and provides access to setting your personal wishlist. I contributed to front-end/back-end connection, server setup, handlebars, models, front-end javascript and helper functions, and helped with styling
- Tools/Languages: JavaScript, Handlebars, CSS, HTML, Bootstrap, Node-cron

The Maze Runner

<https://github.com/PhalenH/MazeGen> | <https://isaacjcarnes.github.io/MazeGen/>

- All around contributor (front-end)
- A basic maze game where a user traverses a series of mazes as fast as possible.
- A mobile responsive maze game to play against friends, for fun to stay busy, and can work as memory training. Personal contributions included landing page and highscore page setup, styling, and javascript functions as well as local storage setup and character movement.
- Tools/Languages: JavaScript, CSS, HTML, UIKit, Giphy API, ACNH API

Tech Blog

<https://github.com/PhalenH/tech-blog> | <https://afternoon-everglades-02639.herokuapp.com/>

- Sole contributor to application
 - Community blog site where users can create and read tech related blog posts.
 - Uses CRUD operations to allow users to create/delete/edit posts of their own as well as read and leave comments on other user's posts
 - Tools/Languages: JavaScript, Handlebars, CSS, HTML
-

Work Experience

Neffsville Nursing and Rehabilitation Physical Therapy Assistant

***June 2019-Present
Lancaster, Pennsylvania***

- Provide high quality Physical Therapy services for residents, caregivers and the facility
- Implementing effective and diverse treatment programs appropriate for adult and geriatric rehabilitation residents with diagnosis ranging from joint replacements, neurological disorders, fractures, and amputations among others
- Participate in specific data collection to analyze and assess safest and most productive services
